**PROXY STATEMENT  
FOR  
2011 ANNUAL MEETING OF STOCKHOLDERS  
OF  
WILLIS LEASE FINANCE CORPORATION  
To Be Held on May 18, 2011**

---

**SOLICITATION AND VOTING OF PROXIES**

**General**

This proxy statement is furnished in connection with the solicitation by the Board of Directors (also referred to as the “Board”) of WILLIS LEASE FINANCE CORPORATION (“we,” “us,” “our,” “Willis Lease” or the “Company”) of proxies to be voted at the 2011 Annual Meeting of Stockholders, which will be held at 4:00 p.m. local time on Wednesday, May 18, 2011 at our executive offices, located at 773 San Marin Drive, Suite 2215, Novato, California 94998, or at any adjournments or postponements thereof, for the purposes set forth in the accompanying Notice of 2011 Annual Meeting of Stockholders.

This proxy statement is being mailed to stockholders on or about April 29, 2011. Our 2010 Annual Report is being mailed to stockholders concurrently with this proxy statement. You should not regard the 2010 Annual Report as proxy soliciting material or as a communication by means of which any solicitation of proxies is to be made.

**Important Notice Regarding the Availability of Proxy Materials for the Annual Meeting to be held on May 18, 2010: The Proxy Statement and the 2010 Annual Report are available at <https://materials.proxyvote.com/970646>.**

**Voting**

The close of business on March 21, 2011 is the record date for determining whether you in your capacity as a stockholder are entitled to notice of and to vote at the 2011 Annual Meeting of Stockholders. As of that date, we had 8,813,038 shares of common stock, \$0.01 par value, issued and outstanding. All of the shares of our common stock outstanding on the record date are entitled to vote at the 2011 Annual Meeting of Stockholders. If you are entitled to vote at the meeting, you will have one vote for each share of common stock you hold with regard to each matter to be voted upon.

The required quorum for the meeting is a majority of the outstanding shares of common stock eligible to be voted on the matters to be considered at the meeting.

Shares of our common stock represented by proxies which are properly executed and returned to us on the accompanying proxy card will be voted at the 2011 Annual Meeting of Stockholders in accordance with the instructions you mark on the proxy card. If you do not mark any instructions on the proxy card, your shares represented by the proxy card will be voted for the election of the Board’s nominees as Class I Directors, and in favor of Proposals 2 and 4, and in favor of the Board’s recommendation for Proposal 3. In the election for directors (Proposal 1), the nominees for Class I Directors receiving the highest number of affirmative votes will be elected. The affirmative vote of a majority of the shares voted in person or by proxy at the 2011 Annual Meeting is required for the adoption of Proposals 2 and 4. The Company will consider the plurality of votes cast in respect of Proposal 3 as the preference of our stockholders, on an advisory basis, as to the frequency of advisory

votes to approve our executive compensation. Pursuant to SEC rules, if an alternative with respect to Proposal 3 receives a majority of votes cast and we adopt that frequency, we may exclude from future proxy statements any stockholder proposal asking that a different frequency be used.

If a properly signed proxy or ballot indicates that you abstain from voting or that your shares are not to be voted on a particular proposal, your shares will not be counted as having been voted on that proposal, although your shares will be counted as being in attendance at the meeting for purposes of determining the presence of a quorum. Broker non-votes (*i.e.*, shares held by brokers or nominees as to which instructions have not been received from beneficial owners or persons entitled to vote that the broker or nominee does not have discretionary power to vote on a particular matter) are counted towards a quorum, but are not counted for purposes of the proposals in determining whether a matter has been approved by a majority of the shares represented in person or by proxy and entitled to vote.

Our management does not know of any matters to be presented at the 2011 Annual Meeting of Stockholders other than those set forth in this proxy statement and in the Notice accompanying this proxy statement. If other matters should properly come before the meeting, the proxy holders will vote on such matters in accordance with their best judgment.

### **Revocability of Proxies**

If you give a proxy in the form accompanying this proxy statement, you have the right to revoke it at any time before it is voted at the meeting. You may revoke your proxy by:

- filing an instrument of revocation with our Corporate Secretary;
- presenting at or prior to the meeting of a duly executed proxy bearing a later date; or
- attending the meeting and electing to vote in person.

### **Solicitation**

This solicitation is made by our Board of Directors on our behalf. The entire cost of preparing, assembling and mailing the Notice of 2011 Annual Meeting of Stockholders, this proxy statement and the enclosed proxy card, and of soliciting proxies, will be paid by us. Proxies will be solicited principally through the use of the mails, but we may solicit proxies personally or by telephone, electronic mail or special letter by our officers and our regular employees for no additional compensation. We have retained American Stock Transfer & Trust and Broadridge to aid in the solicitation at an estimated cost to us of approximately \$13,525 plus out-of-pocket expenses.

## **INFORMATION ABOUT THE BOARD OF DIRECTORS AND THE COMMITTEES OF THE BOARD**

### **Board of Directors**

Our Bylaws authorize us to have six Directors. At the present time, the Board consists of six Directors who are divided into three classes of two directors each: Class I, Class II and Class III. One class is elected each year for a three-year term. Gérard Laviec, W. William Coon, Jr., Hans Joerg Hunziker, and Robert T. Morris are independent directors, as defined in the NASDAQ listing standard.

Our business, property and affairs are managed under the direction of the Board. Directors are kept informed of our business through discussions with our President and Chief Executive Officer and our other officers, by reviewing materials provided to them and by participating in meetings of the Board and its committees. The Board held a total of four meetings during the fiscal year ended December 31, 2010. Each incumbent director attended at least 75% of the aggregate of: (i) the total number of meetings of the Board; and (ii) the total number of meetings held by all Committees of the Board on which he served.

## **Communications with the Board**

You may communicate with the Board of Directors by sending a letter to: Board of Directors, Willis Lease Finance Corporation, c/o Office of the Corporate Secretary, 773 San Marin Drive, Suite 2215, Novato, California 94998. Our Office of the Corporate Secretary will receive your correspondence and forward it to the Board of Directors or to any individual director or directors to whom your communication is directed, unless the communication is unduly hostile, threatening, illegal, does not reasonably relate to us or our business, or is similarly inappropriate. The Office of the Corporate Secretary has the authority to discard any inappropriate communications or to take other appropriate actions with respect to any such inappropriate communications.

## **Attendance at the Annual Meeting of Stockholders**

Mr. Willis and Mr. Morris attended the 2010 Annual Meeting of Stockholders; our other directors did not attend. We have no policy requiring Board members to attend our annual meeting.

## **Committees of the Board**

The Board of Directors has an Audit Committee and a Compensation Committee, both currently comprised solely of independent directors, as defined by the NASDAQ listing standard.

The Board does not have a nominating committee or committee performing the functions of such a committee. The Board has determined that the function of a nominating committee is adequately fulfilled by the independent directors. It has not established such a committee and therefore has no nominating committee charter. The full Board of Directors participates in the consideration of any director nominee.

Although we have not formally set any specific minimum qualifications that director nominees must possess, we look for candidates with the appropriate experience in aviation and leasing, a strong professional background, and a general understanding of marketing, finance and other disciplines related to the success of a company in our industry. And although not part of any formal policy, our goal is a balanced and diverse Board, with members whose skills, background and experience are complimentary and, together, cover the spectrum of areas that impact our business. Our directors are generally nominated by our management or other directors, and each nominee is evaluated based on the above qualifications and in the context of the Board as a whole. While we do not normally engage professional search firms or other third parties in connection with our Board nomination process, we may do so in the future.

Since we do not have a history of stockholder nominations of directors, we do not have a formal policy regarding stockholder nominees to the Board. Under our Bylaws, stockholders wishing to nominate a candidate for director must give notice to our Corporate Secretary no later than the close of business on the 90th day prior to the first anniversary of our preceding year's annual meeting. If the annual meeting is more than 30 days before or 60 days after such anniversary date, the notice must be delivered no later than the 90th day prior to such annual meeting or the 10th day following the day on which we publicly announce the annual meeting date. The notice should set forth: (i) the name, age, business address and residence address of the nominee; (ii) the principal occupation or employment of the nominee; (iii) the class and number of our shares beneficially owned by the nominee; (iv) a description of all arrangements or understandings between the stockholder and the nominee and any other person(s) pursuant to which the nomination is made by the stockholder; and (v) any other information relating to the nominee that is required to be disclosed in proxy statements for the election of directors pursuant to Regulation 14A under the Securities Exchange Act of 1934. Nominees proposed by stockholders will be evaluated in the same manner as those proposed by management or existing directors.

The Audit Committee oversees our accounting function, internal controls and financial reporting process on behalf of the Board. The NASDAQ's listing rules require that our Audit Committee be composed of at least three independent directors. The Audit Committee meets with our financial management and our independent auditors to review our financial statements and filings, the audit and matters arising from them, and financial reporting procedures, including any significant judgments made in preparation of the financial statements. The Audit Committee currently consists of Directors Robert T. Morris (Chair), Gérard Laviec and W. William Coon, Jr. All members of the Audit Committee are able to read and understand financial statements. Mr. Morris also qualifies as an audit committee financial expert, as defined by the SEC, and is financially sophisticated as required by the NASDAQ listing standards. The Committee held four meetings during the 2010 fiscal year. The Audit Committee's charter is available on the Company's web site ([www.willislease.com](http://www.willislease.com)).

The Compensation Committee reviews and approves our compensation arrangements for executive officers and administers the 2007 Stock Incentive Plan. The Compensation Committee currently consists of Directors Hans Joerg Hunziker (Chair as of January 1, 2011), Gérard Laviec (who was the Chair prior to January 1, 2011), W. William Coon, Jr., and Robert T. Morris. The Compensation Committee held six meetings during the 2010 fiscal year. For additional details, see "Compensation of Executive Officers—Compensation Discussion and Analysis" elsewhere in this proxy statement. The Compensation Committee's charter is available on the Company's web site ([www.willislease.com](http://www.willislease.com)).

### **Board Leadership Structure**

Our company is led by Charles F. Willis, IV, the founder of the Company who serves as our Chairman and Chief Executive Officer. This approach is commonly utilized by public companies in the United States and we believe it has been effective for our company as well. Serving in both these roles since the Company was founded has allowed Mr. Willis to be seen by participants in the aviation industry and by our customers, business partners, investors and the other stakeholders as providing strong leadership for our company and in our industry. The Board believes that his combined role is the optimal structure for us and our stockholders because it enables decisive leadership, ensures clear accountability and enhances our ability to consistently communicate our message and strategy to all of our stakeholders. Moreover, Mr. Willis possesses detailed and in-depth knowledge of the issues, opportunities and challenges facing us and our business and, therefore, is best positioned to develop agendas that focus the Board's time and attention on the most critical matters, while minimizing the potential for confusion or duplication of efforts. We recognize that different board leadership structures may be appropriate for companies in different situations and believe that no one structure is suitable for all companies. We believe that our current Board leadership structure is optimal for us because it demonstrates to our employees, suppliers, customers and other stakeholders that Willis Lease is under strong leadership, with a single person setting the tone and having primary responsibility for managing our operations.

We have not appointed an independent board chairman or lead independent director, as we believe that the members of our Board and the two standing Board Committees consisting of independent directors provide an appropriate level of oversight. In this regard, the Audit Committee oversees the accounting and financial reporting processes, as well as risk, legal and compliance matters. The Compensation Committee oversees the compensation of our Chairman and Chief Executive Officer, and upon the recommendation of the Chief Executive Officer, the compensation of the other Named Executive Officers. Each of these Committees is led by a chairperson other than the Chairman and Chief Executive Officer and, as discussed in more detail in this proxy, the entire Board of Directors is actively involved in overseeing our risk management. The entire Board, or, as appropriate, the independent directors, monitors matters such as the composition of the Board and its committees, board performance and "best practices" in corporate governance. Our independent directors also conduct meetings in executive session. These meetings are typically held in conjunction with every

Board meeting and in 2010 each Board meeting included an independent directors' session. This allows directors to speak candidly on any matters of interest without the Chief Executive Officer or other managers present. We believe this framework strikes a sound balance with appropriate oversight and that appointing an independent board chairman would not improve the performance of the Board in a material way.

### **The Board's Role in Risk Oversight**

It is management's responsibility to manage risk and bring to the Board's attention the most material risks to the Company. Our Board, including through the Audit Committee and Compensation Committee, each of which are comprised solely of independent directors, regularly reviews various areas of significant risk to the Company, and advises and directs management on the scope and implementation of policies, strategic initiatives and other actions designed to mitigate various types of risks. Specific examples of risks primarily overseen by the full board include competition risks, industry risks, economic risks, liquidity risks, business operations risks and risks related to acquisitions and dispositions. Our Audit Committee regularly reviews with management and the independent auditors significant financial risk exposures and the processes management has implemented to monitor, control and report such exposures. Specific examples of risks primarily overseen by the Audit Committee include risks related to the preparation of Willis Lease's financial statements, disclosure controls and procedures, internal controls and procedures required by the Sarbanes-Oxley Act, accounting, financial and auditing risks, treasury risks (insurance, credit and debt), risks posed by significant litigation matters, risks associated with proposed affiliate transactions, and compliance with the Company's Code of Ethics and other applicable laws and regulations. The Compensation Committee reviews and evaluates risks related to the attraction and retention of talent, risks associated with management succession planning, and risks related to the design of compensation programs established by the Compensation Committee for our executive officers. The Compensation Committee has determined in its reasonable business judgment that our compensation policies and practices for all employees, including executive officers, do not create risks that are reasonably likely to have a material adverse effect on the Company.

#### **SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE**

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our Directors and executive officers, and persons who own more than ten percent of a registered class of our equity securities, to file with the Securities and Exchange Commission initial reports of ownership and reports of changes in ownership of common stock and our other equity securities. Directors, executive officers and holders of more than ten percent of our common stock are required by Securities and Exchange Commission regulation to furnish us with copies of all Section 16(a) reports they file.

Based solely upon review of the copies of such reports furnished to us and written representations from our officers and Directors, we believe that, except as set forth in the following sentence, during the fiscal year ended December 31, 2010, our Directors, executive officers and holders of more than ten percent of our common stock complied with all applicable Section 16(a) filing requirements. Mr. Forsyth's spouse purchased 3,326 shares of the Company's common stock over the period of November 21, 2007 through December 4, 2007, and his Form 4 for these transactions was filed on April 2, 2010.

## COMPENSATION OF EXECUTIVE OFFICERS

### COMPENSATION DISCUSSION & ANALYSIS

This Compensation discussion and analysis describes the material elements of our compensation program for Named Executive Officers. The Compensation Committee of the Board of Directors (the “Compensation Committee”) oversees the design and administration of our executive compensation programs. The Compensation Committee is comprised of four independent directors: Hans Joerg Hunziker (Chair as of January 1, 2011), Gérard Laviec (who was the Chair prior to January 1, 2011), W. William Coon, Jr., and Robert T. Morris. The Compensation Committee meets formally twice per year, and more often if needed. Each meeting includes an executive session, with no member of management present. The Compensation Committee’s charter is available on the Company’s web site ([www.willislease.com](http://www.willislease.com)).

The Compensation Committee retains compensation consultants from time to time to evaluate executive compensation levels and advise on specific programs; the consultants report directly to the Compensation Committee. For the past four years, the Compensation Committee has retained Smith Compensation Consulting to advise on various compensation issues. Smith Compensation Consulting has no other contract or business relationship with Willis Lease.

#### Compensation Philosophy and Objectives

The objectives of our compensation programs are to attract and retain high performing executives, to provide a substantial link between the company’s performance and executive pay, and to provide stockholders with a superior rate of return. It is the Compensation Committee’s philosophy to link the named executive officers’ compensation to corporate performance. The individual elements of compensation are targeted at different areas. Base salaries should be sufficiently competitive to attract and retain highly capable executives; annual incentive bonuses are intended to reward meeting budgeted earnings goals each year; long-term incentives, now primarily in the form of grants of restricted stock, are intended to align executive and stockholder interest, reward long term growth of revenues and earnings, and provide an incentive for key executives to stay with the organization over the long term.

The base salary, annual incentive compensation and long-term incentive compensation of the named executive officers are determined in part by the Compensation Committee reviewing data on prevailing compensation practices of comparable companies with whom we compete for executive talent and evaluating such information in connection with our corporate goals and compensation practices. The Compensation Committee considers various sources of data when determining executive compensation levels, including compensation data from a sampling of public companies and public compensation surveys.

However, it is difficult to determine a precise peer group because the vast majority of the Company’s direct competitors are business units within much larger corporations such as General Electric, United Technologies and Bank of Tokyo Mitsubishi such that the heads of the leasing divisions do not appear in proxy statements as Named Executive Officers—therefore, the Compensation Committee makes its decisions based primarily on its understanding of compensation practices in the aviation services and leasing markets, generally, and for companies of comparable size. Accordingly, with the help of Smith Compensation Consulting, the Company has developed information on executive pay practices in (i) public financial services and leasing companies and (ii) other public companies headquartered in Northern California which are representative of the market in which the Company

competes for talent. For fiscal year 2010, the sample of companies consisted of the following companies:

- Aaron's, Inc.
- Affymetrix, Inc.
- Aircastle Limited
- Blue Coat Systems, Inc.
- Dionex Corporation
- Electro Rent Corporation
- ePlus Inc.
- Finisar Corporation
- FormFactor, Inc.
- GATX Corporation
- Infinera Corporation
- Informatica Corporation
- IXYS Corporation
- Marlin Business Services Corp.
- McGrath RentCorp
- Micrel, Incorporated
- Mobile Mini, Inc.
- Solera Holdings, Inc.
- Synaptics Incorporated
- TAL International Group, Inc.
- TIBCO Software Inc.
- VeriFone Systems, Inc.
- Zoran Corporation

In selecting the public companies for inclusion in the sample, the following factors were considered: industry, geographic location, net revenues, market capitalization, and whether the company may compete against us for executive talent. These companies ranged in annual revenue from approximately \$33 million to \$1.75 billion (median of \$388 million) and market capitalization from approximately \$112 million to \$2.5 billion (median of \$787 million).

In addition to gathering data specific to the above listed companies, the Compensation Committee also reviewed public surveys of compensation practices, including surveys conducted by Watson Wyatt Worldwide, Towers Perrin, and Mercer.

Our general guideline is to provide a total compensation opportunity which is reasonable in the prevailing market. The Compensation Committee does not seek to specifically benchmark compensation based upon the sample companies reviewed nor does the Compensation Committee employ any other formulaic process in making compensation decisions. Rather the Compensation Committee uses its subjective judgment based upon a review of all information, including an annual review for each officer of his or her level of responsibility, contributions to our financial results and our overall performance. The Compensation Committee makes a generalized assessment of these factors and this information is not weighted in any specific manner. Actual compensation packages may vary based on the Compensation Committee's and Mr. Willis' subjective evaluation of each executive's performance and potential and the Company's overall financial position and performance.

### **Governance of Compensation Programs**

Our CEO, in conjunction with human resources, develops recommended annual salaries, incentive targets and long-term incentive compensation for the Named Executive Officers. After reviewing the survey and peer group information described above under "Compensation Philosophy and Objectives" and the market information provided by the Compensation Committee's outside consultant, the Compensation Committee determines in its subjective judgment the annual salaries, incentive targets and long-term incentive compensation for the Named Executive Officers.

### **Elements of Compensation**

Each element of compensation has a different purpose, although in combination they are intended to make sure that Willis Lease has a competitive compensation package that attracts top talent and provides incentives that encourage a high level of short- and long-term performance for the benefit of stockholders. The Compensation Committee looks at these elements both individually (to ensure that each element is achieving its objective) and collectively (to ensure that the total compensation package is competitive). Components of the total executive compensation package include:

**Base Salary:** Each officer's base salary is set on the basis of the Compensation Committee's assessment of salary levels in effect for comparable positions in the labor market, the officer's personal performance, and internal comparability considerations. The weight given these factors may vary from

individual to individual. Base salaries are reviewed annually, and adjustments are made in accordance with the factors described above. Base salary increases depend in part on market competitiveness, time in position, individual performance and growth during the year, and expected future performance.

Internal equity is also an important consideration in setting compensation levels for Company executives. Since the Company is different in some respects from the other industrial and financial companies in the survey samples, and since to some degree responsibilities of the Company's executive officers differ from those in typical companies (for example our Chief Legal Counsel is also responsible for Human Resources), the Compensation Committee gives some consideration to relative internal responsibilities when determining salaries, annual incentive bonus targets, and long term incentive grants. For example, since Mr. Forsyth and Mr. Nord both manage key staff functions for the Company, the Compensation Committee believes it is important that their compensation be generally in the same range.

**Annual Incentive Compensation:** The Compensation Committee has established an annual incentive program designed to reward both the achievement of specific financial goals set by the Board on an annual basis and individual performance. Executives participate in a company-wide bonus plan with each employee participant having an individual target bonus based on a percentage of base salary.

The determination of the target bonus percentages for each of the Named Executive Officers started with the target bonus percentage set forth in their respective employment agreements or offer letters, which percentages were determined in part by compensation negotiations at hire and in part by evaluating target incentive levels in the prevailing market. (See "Compensation Philosophy and Objectives".) The employment agreement for Messrs. Willis, Forsyth, and Nord provided for target bonus percentages of 100%, 60%, and 50%, respectively. The employment agreement for Mr. Nunemaker provided for a target bonus percentage of up to 85% of base salary for the 2000 bonus program. Because of the subsequent transfer of certain chief operating officer duties, Mr. Nunemaker's target bonus percentage has since been adjusted to 50% of base salary. The employment offer letter for Mr. Crews provides for a target bonus percentage of 50% for a bonus to be paid out of the bonus pool discussed below, with an additional 50% bonus payable based on the subjective evaluation of his individual performance by the Chief Executive Officer (no discretionary bonus was paid to Mr. Crews for 2010).

The amount that an employee may be paid as an annual incentive for any year also depends on the amount of the potential "bonus pool" established at the beginning of each year by the Board which will be funded if the Company achieves the budgeted financial goal. The amount of the potential bonus pool is established based on the Company's budgeted earnings for the year, the number of employees at the beginning of the year and those employees' salaries and respective target bonus percentages. If the Company achieves the financial goal set by the Board, then each participant's share of the bonus pool will be equal to a fraction (expressed as a percentage) of the bonus pool, the numerator of which is the participant's target bonus amount and the denominator of which is the target bonus amount of all participants. This percentage is multiplied by the total bonus pool to determine each participant's share of the bonus pool. The percentages of actual bonus payouts paid to individual employees compared to their respective salaries may vary from their respective target percentage as a result of the addition or subtraction of employees from the group of eligible pool participants over the year.

In 2010 the bonus plan approved by the Compensation Committee provided for a bonus pool based on the achievement of a 9.2% return on equity goal. Return on equity is calculated as net income attributable to common stockholders divided by common equity, calculated as total stockholders' equity less preferred stock. If the Company achieved a 9.2% return on equity, the bonus pool would be fully funded and all employees, including the executives, would receive essentially the maximum potential amount of their target bonuses which range from 100% (in the case of the CEO) to 15% of an employee's base salary. If return on equity was less than 9.2%, the bonus pool would be correspondingly reduced. If return on equity was less than 50% of this goal (*i.e.*, 4.6%), the bonus pool would be eliminated and no bonuses would be paid.

The Company achieved a return on equity for 2010 of 4.7%, and based on the total number of bonus pool participants at the end of 2010 and their respective target bonus percentages, the eligible participants, including the Named Executive Officers, received a bonus out of the bonus pool of approximately 61% of their target bonus amount.

**Long-term Incentive Compensation:** To reward executives for the long term growth in the value of the Company's shares, the Compensation Committee also makes annual long-term incentive grants. Grants of restricted stock awarded to officers, including all Named Executive Officers, are based primarily on competitive grant practices in industry as described above. Also, as explained above, each element of compensation is determined separately and therefore other forms of compensation paid to Named Executive Officers do not directly influence the amount of long-term incentive compensation that the Company awards.

Prior to June 2006, stock options (non-qualified and incentive stock options) were the primary form of long-term incentives for our executives. Because the 1996 Stock Option Plan expired in June 2006, no option grants were made after that date. The Incentive Plan approved by the stockholders in 2007 provides the flexibility to grant a variety of types of equity awards to provide long-term incentives to employees rather than being limited to options as the prior plan required. In conjunction with the approval of the new incentive plan, the Compensation Committee shifted its primary type of long-term incentive grants from options to restricted stock. The Compensation Committee, after consulting with its compensation consultant, has determined that the restricted stock is the best vehicle for long-term executive incentives, instead of the stock options previously granted. In the Compensation Committee's judgment, restricted stock reduces the dilution of stockholders' interest by providing similar value with only 1/3 of the number of shares as would be involved in an option grant. The introduction of the requirement to expense option awards for financial statement reporting purposes also makes restricted stock more attractive in both an absolute dollar sense and simplicity in calculating the accounting expense of the grants. The Compensation Committee also believes that restricted stock has a stronger retention value than do options which can expire without providing any incentive benefit. The current expectation is that restricted stock awards will be the primary form of long term incentives for our executives.

In 2010, the Compensation Committee began its analysis of the value of long-term incentive grants of restricted stock to an executive by applying a multiplier of one to that executive's base salary. The Compensation Committee and Mr. Willis then made a subjective overall assessment with respect to the executives (other than Mr. Willis) to determine the appropriate size of restricted stock grants to such executives. The Compensation Committee made a similar subjective assessment with respect to Mr. Willis to determine the appropriate size of his restricted stock grants.

**Employee Stock Purchase Plan:** With the exception of the CEO, whose ownership level precludes his participation under IRS regulations, our Named Executive Officers, as well as all other eligible employees, may purchase Company shares at a discount under the Employee Stock Purchase Plan.

Under the 1996 Employee Stock Purchase Plan (as amended, the "ESPP") 250,000 shares of common stock have been reserved for issuance. Participants may purchase not more than 1,000 shares or \$25,000 of common stock in any one calendar year. Each January 31 and July 31, shares of common stock are purchased with the employees' payroll deductions from the immediately preceding six months at a price per share of 85% of the lesser of the market price of the common stock on the purchase date or the market price of the common stock on the date of entry into an offering period.

### **Executive Stock Ownership**

While the Company promotes share ownership by its executives, and encourages them to acquire shares through the ESPP (in which all eligible executives participate) and long-term stock incentives in

the form of restricted stock and stock options, there are currently no specific guidelines for executive stock ownership or requirement for them to hold shares.

### **Employment Agreements and Severance Payments**

Employment agreements have been entered into with Messrs. Willis, Forsyth, Nunemaker and Nord. In addition to providing for severance as described below, such agreements provide for base salary (subject to increase but not decrease unless part of a salary reduction program affecting all senior executive officers), bonus compensation (as described in the “Annual Incentive Compensation” section of the “Elements of Compensation” portion of the Compensation and Discussion Analysis) and certain benefits. As described in detail below, the employment contracts specify certain severance benefits to be paid in the event of an involuntary termination. Consistent with our compensation philosophy, the Compensation Committee believes that the interests of stockholders are best served if the interests of senior management are aligned with those of the stockholders. To this end, we provide enhanced change of control severance benefits to certain of our executive officers to reduce any reluctance of the executive officers to pursue or support potential change in control transactions that would be beneficial to our stockholders. The agreement to pay such severance resulted from negotiations of employment terms with our Named Executive Officers. For further details, please refer to the section “Termination and Change in Control Payments” elsewhere in this proxy statement. The employment agreements also provide a nondisclosure and nonsolicitation of employees covenant for three years after termination of employment (except for Mr. Forsyth whose nonsolicitation covenant period is 2 years after termination of employment).

Mr. Crews is employed pursuant to an offer letter which provides for an initial annual base salary of \$350,000 per year, subject to annual review. He participates in our annual incentive program with a target bonus opportunity of 50% of his base salary. In addition, he is eligible for a separate bonus of up to 50% of his base salary based on Mr. Willis’ evaluation of his individual performance as recommended to the Compensation Committee. Mr. Crews’ offer letter does not provide for severance benefits or other payments to be made to him upon a termination or change of control.

**Termination and Change in Control Payments**

Employment contracts for Messrs. Willis, Forsyth, Nunemaker and Nord specify certain severance benefits to be paid in the event of an “Involuntary Termination” (*i.e.*, termination of employment by the Company without cause or resignation by the employee for good reason) and, in the case of Messrs. Forsyth, Nunemaker and Nord, specified severance benefits in the event of an Involuntary Termination within 18 months following a change of control (a “Change of Control Termination”). As discussed above, Mr. Crews is employed by the Company pursuant to an offer letter which does not provide for severance benefits or other payments to be made to him upon a termination or change of control.

The maximum of these benefits payable to Mr. Willis would represent (i) three times his base salary, plus (ii) a prorated portion of his annual incentives accrued during the year of termination, plus (iii) the average annual incentives he earned during the three years prior to his Involuntary Termination, plus (iv) distribution of unpaid deferred compensation, immediate vesting of all stock options and restricted stock, and continued coverage for three years under the Company’s employee group benefit plans. Additionally, in the event Mr. Willis is terminated with less than the one year’s notice required by his contract, he is entitled to a lump sum payment equal to his annual base salary prorated for the portion of the year for which he did not receive notice. Upon a change of control, Mr. Willis is entitled to immediate vesting of all stock options and restricted stock, whether or not his employment is terminated. In the event that Mr. Willis voluntarily retires, he is entitled to purchase or assume the lease for his company car, to continued payment for his club memberships and financial planning services in accordance with his contract, and to continued coverage under the Company’s employee group benefit plans for one year following his retirement.

The maximum of these severance benefits payable to Mr. Forsyth would represent (i) one year of his base salary for an Involuntary Termination or 18 months salary for a Change of Control Termination, plus (ii) payment of any vested annual incentives due as of his termination for an Involuntary Termination or Change of Control Termination, plus (iii) only in the case of a Change of Control Termination the average annual incentives he earned during the two years prior to his termination. In addition, he is entitled to immediate vesting of all stock options and restricted stock scheduled to vest during the two years following the termination date, and continued coverage under the Company’s employee group benefit plans for one year following an Involuntary Termination, or for 18 months following a Change of Control Termination. Additionally, in the event Mr. Forsyth is

terminated with less than the one year's notice required by his contract, he is entitled to a lump sum payment equal to one year of his annual base salary.

The maximum of these severance benefits payable to Mr. Nunemaker would represent (i) one year of his base salary for an Involuntary Termination or 18 months base salary for a Change of Control Termination, plus (ii) a prorated portion of his annual incentives accrued during the year of termination for an Involuntary Termination or Change of Control Termination, plus (iii) in case of an Involuntary Termination, the average annual incentive he earned during the two years prior to his termination, or in case of a Change of Control Termination, one and one half times the average annual incentives earned during the two years prior to his termination. In addition, he is entitled to immediate vesting of all stock options and restricted stock, and continued coverage under the Company's employee group benefit plans for one year following an Involuntary Termination, or for 18 months following a Change of Control Termination. Additionally, in the event Mr. Nunemaker is terminated with less than the six months' notice required by his contract, he is entitled to a lump sum payment equal to six months' of his annual base salary.

The maximum of these severance benefits payable to Mr. Nord would represent (i) six months of his base salary for an Involuntary Termination or one year's salary for a Change of Control Termination, plus (ii) payment of any vested annual incentives due as of his termination for an Involuntary Termination or Change of Control Termination, plus (iii) only in the case of a Change of Control Termination, the average annual incentive he earned during the two years prior to his termination. In addition, he is entitled to immediate vesting of all stock options and restricted stock scheduled to vest during the two years following the termination date, and continued coverage under the Company's employee group benefit plans for six months following an Involuntary Termination, or for one year following a Change of Control Termination. Additionally, in the event Mr. Nord is terminated with less than the six months' notice required by his contract, he is entitled to a lump sum payment equal to six months' of his annual base salary.

However, if any of these payments or benefits would constitute a "parachute payment" within the meaning of Section 280G of the Internal Revenue Code of 1986 (the "Code"), as amended, and would be subject to the Excise Tax imposed by Section 4999 of the Code, the contract stipulates that payments to Messrs. Willis, Forsyth, Nunemaker and Nord will be reduced to an amount equal to the larger of the amount the executive would receive if their payment were reduced to a level that would not trigger the "parachute payment" excise tax, or the full payment subject to the excise tax.

Other than as described above, if a named executive officer ceases to be employed by us because of his resignation or retirement (other than for reasons constituting a constructive termination under their employment agreements), no severance payments are owed by us.

The following table shows potential payments to our Named Executive Officers under existing contracts for (i) an Involuntary Termination, and (ii) a Change of Control Termination, in each case, on December 31, 2010.

- (1) The value of the unvested restricted stock awards as of December 31, 2010 was set forth in the Outstanding Equity Awards at Fiscal 2010 Year-End table and based on the Company's closing stock price on December 31, 2010 of \$13.03. These values would be the same for both an Involuntary Termination and a Change of Control Termination. The additional aggregate value of equity vesting acceleration as of December 31, 2010 for both an Involuntary Termination and a Change of Control Termination for Messrs. Forsyth and Nord is limited to awards vesting in the two years following termination.
- (2) No adjustment in these numbers was made to reflect any reduction that would have been made so that payments would not trigger a parachute payment excise tax. However if an Involuntary Termination or Change of Control Termination occurred on December 31, 2010, such a reduction would likely have been necessary.

**Director Compensation**

Our outside, independent (non-employee) directors are compensated by a combination of an annual cash retainer, and restricted stock, with additional stipends for the Chairs of the Audit and the Compensation Committees. In addition, new non-employee directors are granted 5,000 shares of restricted Company stock on their appointment.

The Company does not provide additional compensation to executives who serve on the Board.

In March 2009, based on an analysis of market levels for board compensation in companies the size of Willis Lease conducted by Smith Compensation Consulting, the Board voted to adopt a new schedule for independent director compensation, to be effective January 1, 2009. The total fee was increased to \$97,000 per year, one-half payable in cash and one-half in the form of an award of restricted stock based on the closing price of the Company's shares on the date of the Annual Meeting of Stockholders. The Chair of the Audit Committee continues to receive a \$10,000 stipend and the Compensation Chair receives a \$5,000 stipend. Additionally, in December 2009, the Board voted to increase director compensation by 5% for 2010.

The following table summarizes compensation by individual non-employee director for 2010.

This adjustment is paid in cash.
- (3) Payment under the Independent Contractor Agreement described below under “Certain Relationships and Related Transactions.”

The unvested restricted stock held by each director is as follows: Mr. Laviec, 4,327; Mr. Hunziker, 4,327; Mr. Coon, 5,577; Mr. Morris, 5,577; Mr. Willis, 6,827. Under the 2007 Plan each non-employee Board member received a restricted stock grant of 5,000 shares of common stock when they first become a non-employee Board member. In addition each individual who is to continue to serve as an independent director is granted approximately \$50,925 worth of restricted stock based on the market price of our common stock on the date of the Company’s Annual Meeting of Stockholders. Each 5,000 share initial restricted stock grant vests in a series of four successive equal annual installments over the recipient’s period of continued service as a Board member measured from the grant date. Each approximate \$50,925 value annual restricted stock grant vests in one installment on the recipients’ completion of one year of Board service measured from the grant date.

**PROPOSAL 2**  
**ADVISORY VOTE ON EXECUTIVE COMPENSATION**

The recently enacted Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the “Dodd-Frank Act”), enables our stockholders to vote to approve, on an advisory (nonbinding) basis, the compensation of our named executive officers as disclosed in this proxy statement in accordance with SEC rules.

As described in detail under the heading “Executive Compensation—Compensation Discussion and Analysis,” our executive compensation philosophy and programs are designed to foster a performance-oriented culture that aligns our executive officers’ interests with those of our stockholders. Please read the “Compensation Discussion and Analysis” in the proxy statement for details about our executive compensation programs, including information about the fiscal year 2010 compensation of our named executive officers.

We are asking our stockholders to indicate their support for the compensation arrangements with our named executive officers as described in this proxy statement. This proposal, commonly known as a “say-on-pay” proposal, gives our stockholders the opportunity to express their views on our named executive officers’ compensation. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the philosophy, policies and practices described in this proxy statement. Accordingly, we are asking our stockholders to vote “FOR” the following resolution to be presented at the Annual Meeting:

“RESOLVED, that the Company’s stockholders approve, on an advisory basis, the compensation of the named executive officers, as disclosed in the Company’s Proxy Statement for the 2010 Annual Meeting of Stockholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the 2010 Summary Compensation Table and the other related tables and disclosure.”

This “say-on-pay” vote is advisory, and therefore is not binding on the Company, the Compensation Committee or our board of directors. Our board of directors and our Compensation Committee value the opinions of our stockholders, and to the extent there is any significant vote against the named executive officer compensation as disclosed in this proxy statement, we will consider our stockholders’ concerns and the Compensation Committee will evaluate whether any actions are appropriate to address those concerns.

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE “FOR” THE APPROVAL OF THE RESOLUTION ABOVE, RELATING TO THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS, AS DISCLOSED IN THIS PROXY STATEMENT PURSUANT TO THE COMPENSATION DISCLOSURE RULES OF THE SECURITIES AND EXCHANGE COMMISSION.**

**PROPOSAL 3  
ADVISORY VOTE ON THE FREQUENCY OF  
FUTURE ADVISORY VOTING ON EXECUTIVE COMPENSATION**

As a result of the Dodd-Frank Act, publicly-traded companies are required to hold an initial advisory stockholder vote to determine the future frequency of advisory votes on executive compensation, as well as periodic subsequent votes to confirm that frequency. Advisory votes on executive compensation may be held every one, two or three years under the Dodd-Frank Act. The Board is recommending an advisory vote every three years. This is because the Company’s executive compensation programs are designed to drive long-term stockholder value; therefore the Company believes that holding an advisory vote on executive compensation every three years is sufficient and appropriate to assess whether these programs are appropriately motivating employees and driving stockholder value. If we were to hold such votes more frequently, we believe the potential for substantial changes in compensation programs as a result of those votes could interfere with the incentives being provided to executive officers to maximize long-term stockholder value. Corporate results could also be affected because the potential for more frequent changes in approach may result in a lack of focus on aligning compensation with longer-term Company strategies. In addition, due to the periodic volatility in our industry, the economy and in the stock markets, we believe a vote every three years will allow our stockholders to gain a more meaningful perspective on our compensation plans and programs than would occur with more frequent votes. Similar to the vote on executive compensation, this proposal is also an advisory vote and is not binding on the Company. However, the Company values the opinions expressed by our stockholders, and will consider the outcome of the votes both on executive compensation itself and on the frequency of votes when making future decisions on the frequency of such votes.

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR THE OPTION OF “EVERY THREE YEARS” FOR FUTURE ADVISORY VOTES ON EXECUTIVE COMPENSATION.**

## REPORT OF THE AUDIT COMMITTEE

The Audit Committee of the Board of Directors (the “Audit Committee”) oversees our accounting function, internal controls and financial reporting process on behalf of the Board of Directors. The Audit Committee is composed of three directors, each of whom is independent as defined by the NASDAQ listing standards and operates pursuant to the Audit Committee Charter which is available on the Company’s website (*www.willislease.com*).

The Audit Committee reviews our financial reporting process on behalf of the Board. Management has primary responsibility for establishing and maintaining adequate internal financial controls, for preparing the financial statements and for the public reporting process. KPMG LLP (“KPMG”), the Company’s independent auditor for 2010, is responsible for expressing opinions on the conformity of the Company’s audited financial statements with generally accepted accounting principles and on the Company’s internal control over financial reporting.

In this context, the Audit Committee has reviewed and discussed with management and KPMG the audited financial statements for the year ended December 31, 2010 and KPMG’s evaluation of the Company’s internal control over financial reporting. The Audit Committee has discussed with KPMG the matters that are required to be discussed by Statement on Auditing Standards No. 61, as amended (Communication with Audit Committees). KPMG has provided to the Audit Committee the written disclosures and the letter required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant’s communications with the Audit Committee concerning independence, and the Audit Committee has discussed with KPMG that firm’s independence. The Audit Committee has concluded that KPMG’s provision of audit and non-audit services to the Company is compatible with KPMG’s independence.

Based on the review and discussions referred to above, the Audit Committee recommended to our Board that the audited financial statements for the year ended December 31, 2010 be included in our Annual Report on Form 10-K for 2010 for filing with the SEC. This report is provided by the following independent directors, who comprise the Audit Committee:

Robert T. Morris, Audit Committee Chairman  
W. William Coon, Jr.  
G rard Laviec

## PROPOSAL 4 RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee has appointed the firm of KPMG LLP (“KPMG”) to audit our 2011 financial statements, and KPMG also served in this capacity in 2010. Although not required by the Company’s Bylaws or otherwise, the Audit Committee and the Board of Directors believe it appropriate, as a matter of good corporate practice, to request that the stockholders ratify the appointment of KPMG as the Company’s independent registered public accounting firm for fiscal year 2011. If the stockholders do not so ratify, the Audit Committee will reconsider the appointment and may retain KPMG or another firm without re-submitting the matter to the Company’s stockholders. Even if the stockholders vote on an advisory basis in favor of the appointment, the Audit Committee may, in its discretion, direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and the stockholders.

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE “FOR” THE RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM.**

### **Fees Billed to Willis Lease by KPMG LLP**

For the 2010 and 2009 fiscal years, fees for services provided by KPMG LLP to us were as follows:

	<u>2010</u>	<u>2009</u>
Audit Fees(1) . . . . .	\$664,455	\$646,721
Audit Related Fees . . . . .	—	—
Tax fees . . . . .	—	—
All other fees(2) . . . . .	89,768	—
	<u>\$754,223</u>	<u>\$646,721</u>

- (1) Audit fees billed to us by KPMG during the 2010 and 2009 fiscal years include the audit of our annual financial statements and quarterly reviews of financial statements included in our quarterly reports on Form 10-Q.
- (2) Fees billed to us by KPMG during 2010 for professional services rendered in providing international tax consulting services. There were no other fees billed during 2009.

All fees described above were approved by the Audit Committee.

The Audit Committee requires that any services to be provided by our auditors must be approved in advance by the Audit Committee. If approval is required before the Committee can act, a single member of the Committee can approve an engagement, subject to ratification by the Committee at its next meeting. All services were pre-approved by the Committee or its Chair.

KPMG will be at our Annual Meeting. They will have the opportunity to make a statement, if they desire to do so. They will be available to respond to appropriate questions from stockholders.

### **CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS**

As required by NASDAQ rules, all material discretionary transactions between us and our Directors, executive officers or known principal stockholders (or their respective affiliates) must be approved by the Audit Committee. The Audit Committee does not intend to approve any such transactions unless it believes that they are on terms no less favorable to us than could be obtained from unaffiliated third parties. On June 18, 2009, the Board adopted a formal policy governing the disclosure and approval of related party transactions. That policy is available on the Company's web site ([www.willislease.com](http://www.willislease.com)).

Gavarnie Holding, LLC, a Delaware limited liability company ("Gavarnie") owned by Charles F. Willis, IV, purchased the stock of Aloha Island Air, Inc., a Delaware Corporation, ("Island Air") from Aloha AirGroup, Inc. ("Aloha") on May 11, 2004. Charles F. Willis, IV is the President, CEO and Chairman of our Board of Directors and owns approximately 30% of our common stock. As of December 31, 2010, Island Air leases three DeHaviland DHC-8-100 aircraft and four spare engines from us. The aircraft and engines on lease to Island Air have a net book value of \$3.8 million at December 31, 2010. Beginning in 2006 Island Air experienced cash flow difficulties, which affected their payments to us due to a fare war commenced by a competitor, their dependence on tourism which has suffered from the current economic environment as well as volatile fuel prices. The Board of Directors approved lease rent deferrals which were accounted for as a reduction in lease revenue in the applicable periods. Because of the question regarding collectability of amounts due under these leases, lease rent revenue for these leases have been recorded on a cash basis until such time as collectability becomes reasonably assured. After taking into account the deferred amounts, Island Air owes us \$2.8 million in overdue rent. We hold letters of credit for \$0.2 million which may be used to partially offset our claims against Island Air.

In October 2010, Island Air purchased one airframe from us, generating a net gain of \$0.4 million. Effective January 2, 2011 we converted the operating leases with Island Air to a finance lease, with a principal amount of \$7.0 million, under which they have resumed monthly payments. This transaction will increase operating income by \$3.2 million which will be recognized over the five year term of the finance lease. We are also discussing a program for them to commence payments of the deferred amounts under the previous operating leases on a reduced basis. This program is dependent on their obtaining substantially similar concessions from their other major creditors.

We have entered into several consignment agreements with J.T. Power, LLC (“J.T. Power”), an entity whose majority shareholder, Austin Willis, is the son of our President and Chief Executive Officer, and directly and indirectly, a shareholder of ours as well as a Director of the Company. Of those consignment agreements, four are currently outstanding. According to the terms of the first of those outstanding agreements, the Consignment Agreement dated January 22, 2008, J.T. Power is responsible to market and sell parts from the teardown of three engines with a book value of \$4.2 million. During the year ended December 31, 2010, sales of consigned parts under this agreement were \$45,100. Under this agreement, J.T. Power provides a minimum guarantee of net consignment proceeds of \$3.3 million by January 22, 2012. Based on current estimated consignment proceeds, J.T. Power would be obligated to pay \$0.8 million under the guarantee in January 2012. On November 17, 2008, we entered into another Consignment Agreement with J.T.
